## All About the Bride

Our wedding and honeymoon turned out great. We had lots and lots of compliments on our hair from everyone! Thank you so much!

-Danielle

What I found so amazing about working with Jamie was that she gave me just what I was looking for. In the end, I think I looked better than I could have ever imagined. Her professionalism combined with a youthful sophistication was so beautifully displayed in her work that day. Jamie brought all of our looks together, capturing the theme of the day while giving each of my bridesmaids a style that was so easily their own. Jamie, thank you so much for all of your help in creating such a magical day for me. I wish you all the success in capturing each and every bride's hopes and dreams on their special day.

-Jamie

Here are some pictures from our wedding. You did a wonderful job on my hair. I loved it and so did my groom! Your kind, sweet spirit will be one of the memorable things about my wedding day that I will always remember. Thanks for making it fun! Hope to see you again when we're in the Mount Pleasant area.

-Missy

I just wanted to say thank you for all you do. I've never had such an awesome hairdresser. My hair will never look this good again. I really appreciate your skills and your friendly personality. If I am ever back in town, I'll be calling you for a hair appointment. Take care and good luck in all you do.

-Courtney

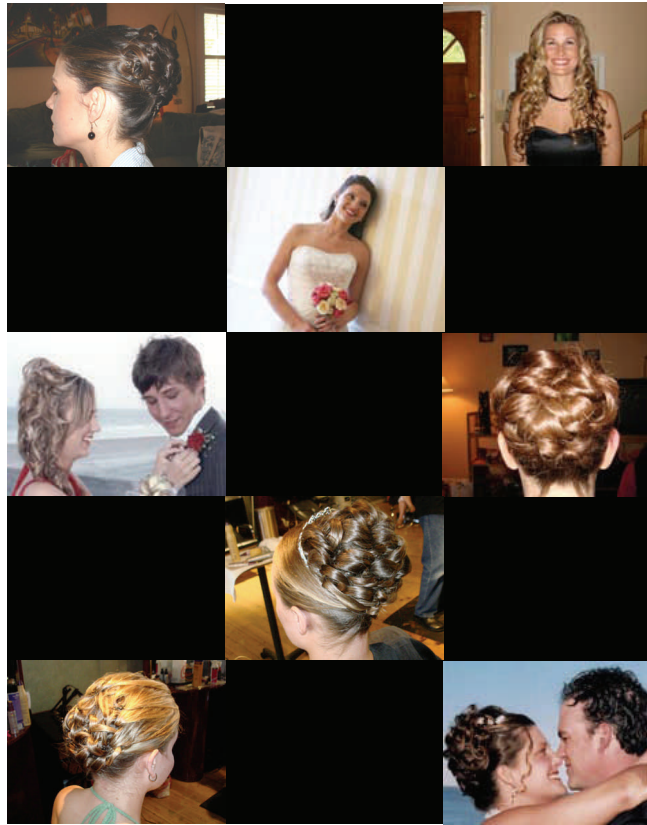

Stacia truly made my wedding day. She is professional, patient, and very talented. My wedding party and I were extremely pleased with our styles. I would recommend her without any reservation to any potential bride.

-Brooke

- Beading also available!

### Extensions

- Temporary
- Permanent

## Tips From the Brides

1. When treating a stain on your white gown, use bottled water and a clean cloth rather than a stain remover.
2. Use white chalk on the dry stain to camouflage any spills that will not come out.
3. You only need three things to survive wedding day photos: lipstick or lip gloss, blotting papers, and bottled water.
4. Bustling your train for the reception? Ties, buttons, and hooks often give out before the night is over. Keep safety pins handy for easy repairs.
5. Tweezers make a great stand-in for needle-nosed pliers when making repairs to zippers, hooks, and decorations.
6. A pain reliever can prevent the bobby pins you "notice" at noon from leading to a splitting headache at 5pm.
7. Drink plenty of water, but make sure to use a straw to keep your lips picture-perfect.
8. Use a hand sanitizing wipe to remove hairspray from your arms when over spraying occurs.
9. Remember to pack your hairbrush, toothbrush, and perfume.
10. Make sure to bring a pair of comfortable flats or ballet slippers if you plan on dancing a lot. Sore feet could sideline you for the night.
11. Consider hiring a personal attendant that is organized, responsible, level-headed, and a great problem solver. Ideally, she will accompany you throughout the day — to hair or makeup appointments, while getting ready, through photos, etc. Let her attend to last-minute details, like final payments to vendors. A good personal attendant will allow you to enjoy your wedding day to the fullest.
